

Police Department

PUBLIC SERVICE ANNOUNCEMENT

During this election year we would like to remind everyone of State Law concerning conduct and activity at or near polling locations. The police department has received some comments from concerned citizens about some prohibited activity taking place recently at the early voting polling locations.

Georgia Law O.C.G.A. 21-2-413: Conduct of voters, campaigners, and others at polling places

(d) No person, when within the polling place, shall electioneer or solicit votes for any political party or body or candidate or question, nor shall any written or printed matter be posted within the room,

(i) No person except peace officers regularly employed by the federal, state, county, or municipal government or certified security guards shall be permitted to carry firearms within 150 feet of any polling place.

Thank you for your adherence to these laws and respect for everyone's right to vote in a safe and non-threatening environment.
